

Ionizing Radiation Division		IRD-G-04
COMPLAINTS		

Purpose

The purpose of this Guide is to document the IRD protocol for the handling of complaints.

Scope

This Guide covers complaints for the services described in the IRD-QM-II only. Complaints directed to other services (*e.g.*, special measurements) are recommended to be handled in a like manner.

Definitions

Complaint – A coherent written statement that expresses dissatisfaction with or calls into question any aspect of an IRD service covered by the IRD Quality System.

Protocol

Receipt of complaint

1. The IRD staff recipient of the customer feedback/concern, whether written, electronic or oral, is responsible for accurately categorizing the feedback as a complaint or a comment (see IRD Guide IRD-G-13). Consultations with IRD managers and/or the IRD Quality Managers are encouraged. The complaint recipient shall initiate a Customer Complaint Report (Appendix IRD-G-04.A) and complete the Complaint section.
2. If received orally, the recipient shall consult with the customer to either obtain a written version directly from the customer (preferred) or verify the accuracy of the complaint recipient's interpretation of the complaint as stated in the Complaint Description section. If more space is needed, additional pages should be attached to the Report.
3. Attach any written complaint to the Report. If submitted by e-mail, print out the complaint and attach it to the Report.

COMPLAINTS		

Determination of root cause(s) and corrective action

1. The report is then forwarded to the Group Leader who is responsible for determining the root cause(s). The job of determining the root cause may be delegated to someone with more experience with the Procedure in question.
2. Once the root cause(s) has been determined, the Group Leader will decide if corrective action is necessary.
3. If no corrective action is necessary, the reason for the decision will be documented on the Report and signed by the Group Leader and Quality Manager.
4. Results of the investigation, corrective actions taken and conclusions must be documented in the appropriate sections of the Report.

Review and distribution of Report

1. The report is then forwarded to the Group Leader and Quality Manager, or their designees, to be reviewed and verified.
2. Three copies of the Customer Complaint Report are prepared and two are sent to the customer for signature. The third copy is placed in the customer file. The original Report is given to the Quality Manager for filing.
3. The customer is asked to return one of the signed copies to the Quality Manager for inclusion in the complaint file.

Acceptance Criteria
